## UNI-E2DG8

The UNI-E2DG8 is an outdoor enclosure with heater and blower. The Blower runs continuously to provide air flow to maintain the same temperature inside the enclosure. The Heater activates to warm the interior. Wall mount bracket and pole mount adaptor are included as standard accessories. Network and power interfaces are through the wall mount arm provides excellent security against tampering.

## KEY FEATURES

Strong polycarbonate material enclosure helps to protect valuable electronics from vandalism and theft.

IP 66 / NEMA 4X rated for outdoor use

Pre-wired for 24VAC power input and Ethernet with RJ45

Center Fed cable runs; no cables are exposed.

Built-in capability to support 110-220 VAC 50/60 Hz power sources.

Cable interconnects via hinged door of wall mount arm for ease of installation

Wall mount arm assembly and pole mount adaptor made with aluminum diecast for strength and stability.

Waterproof Ethernet and Power interfaces provided

The blower remains on at all times, keeping the camera cool and fog free .

the heater automatically activates at 40°F and deactivates at 60°F with a thermal cut off switch assuring safe heating operation.

## ELECTRICAL SPECIFICATIONS

### Operating Temperature (with camera/lens):

-25 °F to +115° F (-32°C to 46°C)

### Storage Temperature:

-40 °F to 140 °F ( -40 °C to 60° C)

### Power Consumption:

2 amps @ 115 VAC typical at full load

### Power Source Options:

24VAC/VDC -OR- 110-220 VAC

### Internal Power Available for Camera:

2.25 amps @ 12V -OR- 1.1 amps @ 24V
